Re: Final reclamation bond readjustment for the Far West and Patti Ann Mines, located, respectively, in T29S, R24E (SLM), Section 28: SW1/4 SW1/4 NW1/4, Section 29: SE1/4 SE1/4 NE1/4 and T29S, R24E (SLM), Section 33: E1/2 SW1/4 SE1/4, W1/2 SE1/4 SE1/4. Both mines are located in San Juan County, Utah.

Dear Mr. Hedberg:

On September 23, 1991, Sal Venticinqe, accompanied by Holland Shepherd and Tony Gallegos, of your staff, made a field check of reclamation done at each of the above-referenced mines. Wayne Wright, field representative for Energy Fuels Nuclear, Inc., was also present. In addition, the voluntary reclamation done by Energy Fuels at the Radon Shaft site [T29S, R24E (SLM), Section 28: NE1/4 SW1/4 SW1/4] and at the Cord Mine [T29S, R24E (SLM), Section 33: NE1/4 NE1/4 NW1/4] was checked. Mr. Venticinqe made the inspections for surface reclamation only. He was not present when the mine shafts at each of these four properties were sealed. With the exception of reseeding at each of these four properties, surface reclamation has been completed satisfactory. Powerline and substation facilities present are covered under Right-of-Way U-016311 (see enclosure), and are not the responsibility of Energy Fuels Nuclear, Inc.

We wish to thank Energy Fuels for doing the additional, voluntary reclamation at the Radon Shaft site and at the Cord Mine. Based on the efforts of Energy Fuels, I would recommend readjustment of the existing bond covering the Far West and the Patti Ann Mines. A portion of the bond needs to remain in effect until the reseeding of disturbed/redisturbed areas at each of the above referenced properties is deemed acceptable. By mutual agreement between our offices, the following seed mix is to be used by Energy Fuels:

RECEIVED

OCT 07 1991

DIVISION OF  
OIL GAS & MINING

Seed Species

Sand dropseed

Western wheatgrass

Crested wheatgrass

Rabbitbrush

Fourwing saltbrush

Yellow sweetclover

Indian ricegrass

Prior to seeding, the ground shall (where possible) be scarified. If seed is broadcast, the above rates are to be doubled. Should you have questions, please contact Mr. Venticinqu at (801) 259-8193.

Sincerely yours,

Area Manager
